What this standard covers

This standard specifies the terms and definitions, principles and processes, technical requirements, test methods, operation and maintenance of all-hydrogen bell annealing furnace exhaust gas recovery and hydrogen recycling. This document applies to all-hydrogen bell annealing furnace tail gas recovery and hydrogen recycling technology. Other heat treatment furnaces using hydrogen as a protective atmosphere can follow this procedure.

Document data

International classification (ICS): 77.080.01.

Chinese classification (CCS): H01.

Estimated length of the Chinese original: 12,168 words.
