### What this standard covers

This standard specifies the classification and code, ordering content, size, shape, weight, technical requirements, test methods, inspection rules, packaging, marking and quality certificate of stainless steel and corrosion-resistant alloy seamless pipes for oil and gas fields in hydrogen sulfide environments. This standard applies to stainless steel and corrosion-resistant alloy seamless pipes for oil pipes, casing, coupling blanks and accessory materials in oil and gas production fields containing hydrogen sulfide environments.

### Document data

International classification (ICS): 77.140.75.

Estimated length of the Chinese original: 33,381 words.
