What this standard covers

This standard specifies the terms and definitions, grades, technical requirements, test methods, inspection rules, packaging, marking, storage and transportation and quality certificates of micro-nitrogen alloys. This standard applies to micro-nitrogen alloys used as nitrogen enhancers and alloying in metallurgy, casting and other industries. Micro-nitrogen alloys for other purposes can refer to this standard.

Document data

International classification (ICS): 77.100.

Chinese classification (CCS): H42.

Estimated length of the Chinese original: 16,158 words.
