What this standard covers

This standard specifies the classification and marking, ordering content, technical requirements, inspection methods, inspection rules, packaging, transportation, storage, marking and quality certificates of hot-dip galvanized-10% aluminum alloy coated low-carbon steel wire products. This standard is applicable to hot-dip galvanized-10% aluminum alloy coated low-carbon steel wire with high corrosion resistance requirements such as animal husbandry cages, ecological support gabions, and protective fences. Other applications with high corrosion resistance requirements can be implemented as a reference.

Document data

International classification (ICS): 77.140.65.

Chinese classification (CCS): H49.

Estimated length of the Chinese original: 12,113 words.
