What this standard covers

This standard specifies the categories and grades, ordering contents, technical requirements, inspection methods, acceptance rules, packaging, marking, and quality certificates of recycled casting high-temperature alloy raw materials. This standard applies to recycled casting high-temperature alloy raw materials used as raw materials in the smelting and casting of high-temperature alloys. Recycled raw materials for other casting alloys (such as corrosion-resistant alloys, cobalt-chromium-molybdenum alloys for surgical implants, etc.) may also refer to this standard.

Document data

International classification (ICS): 77.140.70.

Chinese classification (CCS): H57.

Estimated length of the Chinese original: 8,896 words.
