What this standard covers

This standard specifies the classification codes, ordering details, dimensions, shape, weight, technical requirements, test methods, inspection rules, packaging, marking, and quality certificates for high-strength stainless steel plates and strips used in containers. This standard applies to hot-rolled and cold-rolled stainless steel plates and wide strips (including coiled steel plates) used in tank containers, refrigerated containers, and dry bulk containers.

Document data

International classification (ICS): 77.140.50.

Chinese classification (CCS): H46.

Estimated length of the Chinese original: 2,923 words.
