What this standard covers

This standard specifies the terms and definitions, codes, structural forms and basic parameters, technical requirements, test methods, inspection rules, marking, packaging, transportation, storage, and quality certificates for laser-clad steel rollers used in metallurgy. This standard applies to laser-clad conveyor rollers used for hot conveying and water-cooled alternating heating and cooling on metallurgical rolling mill conveyor lines, and also to laser-clad conveyor rollers on other conveyor lines with similar operating conditions.

Document data

International classification (ICS): 77.180.

Chinese classification (CCS): H93.

Estimated length of the Chinese original: 14,138 words.
