What this standard covers

This standard specifies the terms and definitions, testing equipment, and testing procedures for the dimensions and shapes of hot-rolled steel sections. This standard applies to the testing of the dimensions and shapes of hot-rolled H-beams, T-beams (hot-rolled or split), hot-rolled angle steel, hot-rolled I-beams, and hot-rolled channel steel with a nominal thickness between 3mm and 160mm. Other hot-rolled steel sections may refer to this standard for implementation.

Document data

International classification (ICS): 77.140.60.

Chinese classification (CCS): H44.
