1 Foreword

YB/T 6397-2025 was issued by Ministry of Industry and Information Technology on 17 December 2025 and has been in force since 1 July 2026.

The YB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the ordering details, manufacturing methods, technical requirements, testing methods, inspection rules, packaging, marking, quality certificate, transportation, and storage of laser-clad surface-strengthened extruded steel mandrels. This standard applies to extruded mandrels produced through laser cladding surface strengthening; these products are primarily used in the extrusion production of seamless steel pipes.

YB/T 6397-2025 falls under ICS 77.140.60, in the field of metallurgy.

This catalogue holds 971 other YB/T standards in that field.

In this catalogue, YB/T standards carry edition years from 1980 to 2026.

3 About this standard

Sector: Ferrous Metallurgy Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 6723-2017 - Cold forming open section steel for general structure

GB/T 6478-2015 - Steels for cold heading and cold extruding

YB/T 5346-2006 - Cold drawn special shaped steel bar

YB/T 4453-2026 - Hot-rolled alloy structure steel wire rods

YB/T 4423-2026 - Flange Inclination gauge for H sections steel

YB/T 6392-2025 - Continuous casting round billets for wind power gears

5 Classification and status

International classification (ICS): 77.140.60

Chinese Standard Classification (CCS): H 44

Prefix YB/T: recommended standard.
