**Data elements for industrial and commercial statistics of
tobacco industry. Part 1: Data element directory
(English Translation)**

Issued on: April 14, 2008

Implemented on: April 14, 2008

Issued by: State Tobacco Monopoly Administration

Table of Contents

Preface

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 2 packets of data elements

5 2 format data element expression

Representation of data element values 3

6.1 Data type representation

6.2 Character length notation

6.3 Application Examples

Using 7 data element, maintenance and management

4 8 Data Element Directory

8.1 And data relating to organization, personnel, address, location, and other contact element

8.2 Data with date, time, duration of about 11 yuan

8.3 Data and cigarette-related unit

8.4 Tobacco-related data and metadata

8.5 Tobacco and data elements related material

8.6 And output-related data elements

8.7 Other data element

Foreword

YC/T 256 "tobacco industry BUSINESS statistical data element" is divided into two parts.

--- Part 1. Data element directory;

--- Part 2. code set.

This section YC/T Part 1 256.

This part by the State Tobacco Monopoly Bureau.

This part of the National Standardization Technical Committee on Tobacco Information Technical Committee (TC144/SC7) centralized.

This section is drafted. State Tobacco Monopoly Bureau Tobacco Economic Information Center, China National Institute of Standardization.

Introduction

This section YC/T 256 is statistics, summary statistics industrial and commercial activities of the tobacco industry are involved in basic data elements. This portion YC/T 256.2 supporting the use of that argument in this section of the code data element See YC/T 256.2.

This section based on the data element standardization of basic principles and methods, the use of tags, title, description, presentation, units of measurement, synonym, word Section name, range, and so on a set of scientific context attributes normative data units is described.

The tobacco industry to adopt uniform data elements and code standards to maximize eliminate data naming, description, classification and coding is not Confusion caused by consensus, so that users at all levels to reflect the tobacco industry systems production, operation and management of the statistical activities of the basic conditions Indicators (data elements) and its classification codes have the same understanding, expression and identification of achieving unambiguous semantic ensure the accuracy of the data, Science, legality, policy and operational leadership at all levels, preparation and inspection control objectives, macro-control and scientific management to provide in accordance with.

BUSINESS tobacco industry statistics yuan Part 1. Data Element Directory

1 Scope

This section YC/T 256 provisions of China's tobacco industry, industrial, basic business statistics involved, common data elements standard Remember, the name, description, presentation, measurement units related content.

This section applies to China's tobacco industry production, operation and management of the business activities and the construction of information systems, development and utilization of information resources.

2 Normative references
