Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard replaces YC/T 336-2010 "Code for Design of Tobacco Workstations". Compared with YC/T 336-2010, except for editorial changes the main technical changes are as follows.

---In accordance with the "Implementation Regulations of the Tobacco Monopoly Law of the People's Republic of China", the name of the standard and the terms "tobacco workstation" are changed to "tobacco purchase station";

---"Terms and Definitions" deleted the definitions of "Tobacco Workstation" and "Standard Unit" (see 3.1 and 3.4 of the 2010 edition), and revised "Tobacco Leaf the definition of "purchase process" and "weight group" (see 3.2, 3.3, 2010 editions 3.2, 3.3), and the definition of "tobacco leaf purchase station" and "raw tobacco product" (see 3.1, 3.4);

---"Settings and Classification" modified the setting principles (see 4.1, 4.1 in 2010 edition);

---"Site selection, general layout and transportation" increased the land use requirements for the newly built tobacco leaf purchase station, and revised the requirements of the tobacco leaf purchase station the requirements for the scale of land use have increased the general layout requirements for the fire control room and the security control room (see Chapter 5, Chapter 5 of the 2010 edition);

---"Tobacco Leaf Purchase Process and Main Work Sections" revised the main functions of the purchase process, the purchase section and the storage section, and added the temporary Storage time requirements (see Chapter 6, Chapter 6 of the 2010 edition);

---"Building structure" revised the composition and construction area indicators of the joint studio and office and living rooms, and increased the stacking of cigarette packs in the storage area Requirements (see Chapter 7, Chapter 7 of the 2010 edition);

---"Electrical and Information System" modified the technical measures of lighting power distribution, lightning protection and grounding, and added information network system and video surveillance Technical measures for information management systems such as

systems, information release systems, voice communication systems, integrated wiring systems, security systems, etc.

Shi (see Chapter 8, Chapter 8 of the 2010 edition);

--- "Heating, Ventilation and Air Conditioning" revised the technical measures of dehumidification, dust reduction and air conditioning (see Chapter 9, Chapter 9 of the 2010 edition);

---The related content of "Building Fire Protection" in "Building Structure" is merged into the "Fire Protection" chapter, and the content related to fire protection is a separate chapter (see Chapter 10);

---"Fire protection" modified the related technologies of building fire protection, fire power supply and its power distribution, automatic fire alarm system, fire water supply, and smoke prevention and exhaustion Measures (see Chapter 10, Chapter 10 of the 2010 edition);

---Each chapter is based on the latest national and industry standards and regulations, relevant policies and requirements for tobacco leaf purchase, and the construction of tobacco leaf purchase stations the experience and results have been comprehensively revised.

This standard was proposed by the State Tobacco Monopoly Administration.

This standard is under the jurisdiction of the National Tobacco Standardization Technical Committee Engineering Construction Subcommittee (SAC/TC144/SC5).

Drafting organizations of this standard. Development Planning Department of the State Tobacco Monopoly Administration, China Tobacco Leaf Corporation, China Tobacco Corporation Hefei Design Institute, China Tobacco Grass Headquarters Yunnan Branch, China Tobacco Corporation Guizhou Branch, China Tobacco Corporation Hunan Branch, China Tobacco Corporation Fujian Provincial Company, Shandong Provincial Company of China National Tobacco Corporation.

1 Scope

This standard specifies the technical requirements for the design of tobacco leaf purchase stations.

This standard applies to newly built, rebuilt and expanded tobacco leaf purchasing stations.

2 Normative references

The following documents are indispensable for the application of this document. For dated reference documents, only the dated version applies to this article Pieces. For undated references, the latest version (including all amendments) applies to this document.
