YC/T 613-2024

**Technical specification for safety of confined spaces operation
in tobacco enterprises
(English Translation)**

Issued on: January 29, 2024

Implemented on: May 1, 2024

Issued by: State Tobacco Monopoly Administration

Table of Contents

Preface	
1 Scope	
2 Normative references	
3 Terms and Definitions	
4 Confined space and operation safety risk identification	
4.1 Identification of confined space workplaces	
4.2 Management ledger	
5 Preparation before operation	
5.1 Operation plan formulation	
5.2 Job Approval	
5.3 Safety briefing	
5.4 Equipment and facility inspection	
5.5 Closed working area and safety warnings	
5.6 Open the entrance and exit for natural ventilation	
5.7 Security Isolation	
5.8 Clearing Displacement	
5.9 Initial Gas Detection Assessment	
5.10 Mechanical ventilation	
5.11 Re-testing and evaluation	
5.12 On-site confirmation before operation	
6 Operational safety requirements	
6.1 Technical requirements for safety during operation	
6.2 Post-operation safety technical requirements	
6.3 Emergency rescue	
6.4 Personal protection	
6.5 Operation Monitoring	
6.6 Electrical equipment and lighting	
7 Safety Management	
7.1 General requirements	
7.2 Safety production management system	
7.3 Safety training	
7.4 Configuration and management of protective equipment and facilities	

7.5 Emergency Management

7.6 Outsourcing Operation Management

Appendix A (Informative) Common confined space workplaces and safety risks in tobacco enterprises

Appendix B (Informative) Graphics of confined space safety warning signs

Appendix C (Informative) Management Record of Confined Space Workplaces

Appendix D (Informative) Confined Space Operation Approval Form

Appendix E (Normative) Safety protection equipment and facilities configuration list

Appendix F (Normative) List of emergency rescue equipment and facilities configuration

Appendix G (Informative) Graphics of information notice board for confined space operations

Appendix H (Informative) Graphic of safety notice board for confined space operation

Appendix I (Informative) Gas Detection Record Form

Appendix J (Informative) Concentration limits of common toxic gases in confined space operations

Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting.

1 Scope

This document stipulates the identification of confined space and operation safety risks in tobacco enterprises, preparation before confined space operation, and safety requirements for confined space operation.

Requirements and safety management requirements.

This document is applicable to tobacco processing units and tobacco commercial production and operation units. Other production and operation units with tobacco supporting and diversified investment Units such as acetate fiber and tobacco printing shall follow this procedure.

Note: Tobacco commercial production and operation units refer specifically to prefecture-level tobacco companies. Tobacco processing units include tobacco leaf redrying, cigarette manufacturing, cigar manufacturing, reconstituted tobacco leaf production, etc.

Unit of production.

2 Normative references

The contents of the following documents constitute essential clauses of this document through normative references in this document.

For referenced documents without a date, only the version with the date indicated is applicable to this document; for referenced documents without a date indicated, the latest version (including all amendments) is applicable to this document.

document.

3 Terms and definitions

The following terms and definitions apply to this document.

Confined spaces

Closed or partially closed, relatively isolated from the outside world, with narrow entrances and exits, workers cannot work inside for a long time, and natural ventilation is not good.
