What this standard covers

This Standard applies to acceptance of new optical wavelength division multiplexing transmission system. The main contents include device installation, equipment inspection and functional testing of the machine, system performance testing and functional c

Document data

Chinese classification (CCS): P76.

Estimated length of the Chinese original: 70,743 words.

Supersedes the earlier edition YD/T 5122-2005; YD/T 5176-2009.
