1 Foreword

YD/T 1108-2001 was issued by Ministry of Industry and Information Technology on 20 March 2001 and took effect the same day.

2 Scope

This standard specifies the CDMA digital cellular mobile communication network, wireless synchronization of the functional requirements as well as dual-mode receiver and the base station receiver interface between principles and technical requirements. This standard applies to our CDMA digital cellular mobile communication systems wireless synchronization subsystem parts. Synchronization and positioning in the development of other communication systems may also refer to this specification.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 24 pages (approximate)

Chinese original: about 35,347 characters

4 Classification and status

Chinese Standard Classification (CCS): M 19

Prefix YD/T: recommended standard.
