1 Foreword

YD/T 1189-2002 was issued by Ministry of Industry and Information Technology on 22 April 2002 and took effect the same day.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 24 pages in English translation.

2 Scope Preview

This standard specifies the mobile IC card public pay telephone system terminology and symbols, technical requirements and test methods. This standard applies to access our country based on 900 MHz/1800 MHz TDMA (hereinafter referred to as GSM) or 800 MHz CDMA (hereinafter referred to as CDMA) digital cellular mobile communication network and other various mobile prepaid IC card public telephones. This standard can be used as network access testing and technical basis for product inspection.

YD/T 1189-2002 falls under ICS 33.050.10, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 24 pages (approximate)

Chinese original: about 36,388 characters

4 Related standards

Standards on related subjects:

YD/T 993-2016 - The technical requirements and test methods of overvoltage and overcurrent resistibility for wire telecommunication terminal equipment

YD/T 868-2007 - Technical requirements and measuring methods for additional equipment of telephone set

GB/T 15279-2002 - The specifications of automatic telephone set

YD/T 6092-2024 - Technical requirements and test methods for wide-angle shooting assistance capabilities of mobile communication terminals

YD/T 4676.1-2024 - Effects of particle radiation on telecommunication systems and equipment - Part 1: General

YD/T 4203-2023 - Lightning protection and grounding technical requirements for telecommunications Internet data center infrastructure

5 Classification and status

International classification (ICS): 33.050.10

Chinese Standard Classification (CCS): M 40

Prefix YD/T: recommended standard.
