1 Foreword

YD/T 1207-2002 was issued by Ministry of Industry and Information Technology on 21 June 2002 and took effect the same day.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 97 pages in English translation.

2 Scope Preview

This standard specifies the 800MHz digital cellular mobile communication system in the realization of pre-paid services, the interoperability between different systems, message flow, message, and parameter definitions. This standard applies to 800MHz digital cellular mobile communication system, for operation, management, planning, and related equipment, the introduction and production use.

YD/T 1207-2002 is filed under Chinese Standard Classification M21, in the field of
