1 Foreword

YD/T 1249-2003 was issued by Ministry of Industry and Information Technology on 22 January 2003 and took effect the same day.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 13 pages in English translation.

2 Scope Preview

This standard provides a comprehensive intelligence network in the telecommunications network (including fixed network, mobile network, etc.) in the position of integrated intelligent network system, providing the business scope, the main function of each functional entity, protocol, signaling, billing, etc. requirements. This standard applies to Integrated Intelligent Network.

YD/T 1249-2003 is filed under Chinese Standard Classification M11, in the field of
