## 1 Foreword

YD/T 1262-2003 was issued by Ministry of Industry and Information Technology on 11 April 2003 and took effect the same day.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 246 pages in English translation.

## 2 Scope Preview

This standard specifies the Open Service Access application program interface (PARLAY API) architecture, providing business, the service capability feature (SCF) a description of each method and its parameters, service attributes, data definitions and other requirements. This standard applies to Open Service Access application program interface (PARLAY API).

YD/T 1262-2003 is filed under Chinese Standard Classification L79, in the field of electronic
