1 Foreword

YD/T 1280-2003 was issued by Ministry of Industry and Information Technology on 7 July 2003 and took effect the same day.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 192 pages in English translation.

2 Scope Preview

This standard specifies the 900/1800MHz TDMA digital cellular mobile communication network management interface functional requirements management, management information models and communication protocols. This standard defines the interface type is based CMIP network management interface. This standard applies to the 900/1800MHz TDMA digital cellular mobile communication network network management.

YD/T 1280-2003 is filed under Chinese Standard Classification M10, in the field of
