1 Foreword

YD/T 1285-2003 was issued by Ministry of Industry and Information Technology on 12 August 2003 and took effect the same day.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 20 pages in English translation.

2 Scope Preview

This standard specifies the interconnection and interworking communication quality after dialing delay in the completion rate indicator testing methods, and telecommunications management sector indicators when assessing interoperability testing methods. This standard applies to interconnection management department of the operators call connection quality indicator evaluation and testing, but also as operators measure the quality of service interoperability technical basis.

YD/T 1285-2003 falls under ICS 33.040, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
