1 Foreword

YD/T 1308-2004 was issued by Ministry of Industry and Information Technology on 9 February 2004 and took effect the same day.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 42 pages in English translation.

2 Scope Preview

This standard provides a platform for intelligent public telephone system functional requirements, system interconnection requirements, interaction protocols, signaling processes, encryption algorithm, terminal maintenance and management requirements and so on. This standard applies to proprietary platform based on intelligent networks and intelligent public telephone system design and compliance testing.

YD/T 1308-2004 falls under ICS 33.050.10, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 42 pages (approximate)

Chinese original: about 62,670 characters

4 Related standards

Standards on related subjects:

YD/T 993-2016 - The technical requirements and test methods of overvoltage and overcurrent resistibility for wire telecommunication terminal equipment

YD/T 868-2007 - Technical requirements and measuring methods for additional equipment of telephone set

GB/T 15279-2002 - The specifications of automatic telephone set

YD/T 6092-2024 - Technical requirements and test methods for wide-angle shooting assistance capabilities of mobile communication terminals

YD/T 4676.1-2024 - Effects of particle radiation on telecommunication systems and equipment - Part 1: General

YD/T 4203-2023 - Lightning protection and grounding technical requirements for telecommunications Internet data center infrastructure

5 Classification and status

International classification (ICS): 33.050.10

Chinese Standard Classification (CCS): M 40

Prefix YD/T: recommended standard.
