1 Foreword

YD/T 1333-2004 was issued by Ministry of Industry and Information Technology on 22 December 2004 and has been in force since 1 March 2005.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the 800MHz CDMA digital cellular mobile communication network Wireless Intelligent Network (WIN) Phase II service control point (SCP) equipment in the 800MHz CDMA system, the position and role, function, billing functions, performance and reliability, the interface procedures, and communication between SMP hardware, software, operation and maintenance management, synchronization, and environmental aspects of the technical requirements. This standard applies to 800MHz CDMA digital cellular mobile communication network WIN Wireless Intelligent Network Service Control Point Phase II (SCP) devices.

YD/T 1333-2004 falls under ICS 33.070, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

Chinese original: about 23,221 characters

4 Related standards

Standards on related subjects:

YD 1268.1-2003 - [YD/T 1268.1-2003] The safety specification and test method for lithium batteries

YD 1268.2-2003 - [YD/T 1268.2-2003] The safety specification and test method for lithium battery charger

YD/T 6502-2025 - Calibration procedures of electromagnetic field sensors and probes (excluding antennas)from 9kHz to 40GHz

YD/T 6501.1-2025 - Antenna performance requirement and measurement method for civil robots integrated with wireless communication technology - Part 1: General requirement

YD/T 2869.3-2025 - Performance requirement and measurement method for MIMO antenna terminal Part 3: 5G NR wireless terminal (mmWave)

5 Classification and status

International classification (ICS): 33.070

Chinese Standard Classification (CCS): M 37

Prefix YD/T: recommended standard.
