1 Foreword

YD/T 1349-2005 was issued by Ministry of Industry and Information Technology on 11 May 2005 and has been in force since 1 November 2005.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the operating frequency in the range of 2. 4000 ~ 2. 4835GHz digital cordless telephones use of the environment, the basic functionality, interface characteristics, wireless technical requirements, electromagnetic compatibility requirements, power requirements, safety requirements, lightning requirements, the basic environmental adaptability, reliability requirements and other technical requirements and test methods. This standard applies to working frequency in the range of 2. 4000 ~ 2. 4835GHz digital cordless telephones, also applies to landline communications network with an analog communication network interface, digital cordless telephones.

YD/T 1349-2005 falls under ICS 33.050.10, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

Chinese original: about 22,223 characters

4 Related standards

Standards on related subjects:

YD/T 993-2016 - The technical requirements and test methods of overvoltage and overcurrent resistibility for wire telecommunication terminal equipment

YD/T 868-2007 - Technical requirements and measuring methods for additional equipment of telephone set

GB/T 15279-2002 - The specifications of automatic telephone set

YD/T 6092-2024 - Technical requirements and test methods for wide-angle shooting assistance capabilities of mobile communication terminals

YD/T 4676.1-2024 - Effects of particle radiation on telecommunication systems and equipment - Part 1: General

YD/T 4203-2023 - Lightning protection and grounding technical requirements for telecommunications Internet data center infrastructure

5 Classification and status

International classification (ICS): 33.050.10

Chinese Standard Classification (CCS): M 40

Prefix YD/T: recommended standard.
