1 Foreword

YD/T 1350.1-2005 was issued by Ministry of Industry and Information Technology on 11 May 2005 and has been in force since 1 November 2005.

It is one of 2 parts of the YD/T 1350 series.

2 Scope

This standard specifies the wavelength division multiplexing (WDM) systems Element Management System (EMS) and Network Management System (NMS) interface between the functional requirements. This standard applies to the specification, design and development of WDM network element management system interface portion upward and WDM network level management system down interface section.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 12 pages (approximate)

Chinese original: about 18,181 characters

4 Related standards

Other parts of this standard:

YD/T 1350.2-2005 - Part 2: The generic information model part

5 Classification and status

International classification (ICS): 33.040.99

Chinese Standard Classification (CCS): M 14

Prefix YD/T: recommended standard.
