What this standard covers

This standard specifies the abbreviations, terms and definitions, technical requirements, test methods, reliability tests, electromagnetic compatibility tests, inspection rules, marking, packaging, transportation and storage requirements of the coarse wavelength division multiplexing optical transceiver module. This standard applies to CWDM optical modules at 10 Gbit/s and below.

Document data

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 28,216 words.

Supersedes the earlier edition YD/T 1351-2005.
