1 Foreword

YD/T 1355-2005 was issued by Ministry of Industry and Information Technology on 11 May 2005 and has been in force since 1 November 2005.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 19 pages in English translation.

2 Scope Preview

This standard specifies the minor synchronize the station clock device (Mini-BITS) the composition, function, performance and environmental requirements and test room method. Meet the requirements of this standard small equipment for the station synchronous clock edge of the backbone network nodes, a small local network end office and edge network nodes, MAN convergence layer nodes, access nodes and mobile base stations. To the digital switching equipment, SDH equipment, ATM equipment and mobile communication devices and other communications equipment to provide the required timing reference signal.

YD/T 1355-2005 falls under ICS 33.040.40, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 19 pages (approximate)

Chinese original: about 29,242 characters

4 Related standards

Standards on related subjects:

GB/T 12572-2008 - Universal requirements and measurement methods of parameters for radio transmitting equipment

YD 1268.1-2003 - [YD/T 1268.1-2003] The safety specification and test method for lithium batteries

YD 1268.2-2003 - [YD/T 1268.2-2003] The safety specification and test method for lithium battery charger

YD/T 6165-2024 - IP source address verification technology testing method

YD/T 2253-2011 - Communication security specification of soft switch-based network

5 Classification and status

International classification (ICS): 33.040.40

Chinese Standard Classification (CCS): M 38

Prefix YD/T: recommended standard.
