1 Foreword

YD/T 1364-2005 was issued by Ministry of Industry and Information Technology on 1 September 2005 and has been in force since 1 December 2005.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 9 pages in English translation.

2 Scope Preview

This standard specifies the point short message interworking device that is internet related equipment technical requirements, including Internet-related functions, interfaces and protocols, performance indicators, billing, statistics and network management, operation and maintenance requirements, hardware requirements, software requirements, etc.. This standard applies to the short message peer interworking of Internet connected devices. Internet Gateway can be set independently, can also be co-located with the short message gateway. For the co-located off of the Internet, this standard only provides relevant content and Internet related.

YD/T 1364-2005 falls under ICS 33.040, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.
