What this standard covers

This standard specifies the 2GHz TD-SCDMA digital cellular mobile communication network interface between RNC and Node B (Iub Interface) control plane and user plane protocols testing methods. This standard applies to 2GHz TD-SCDMA digital cellular mobile communication network billing system Iub interface testing, but also for the Iub interface compatibility testing.

Document data

International classification (ICS): 33.070.

Chinese classification (CCS): M37.

Estimated length of the Chinese original: 60,644 words.
