What this standard covers

This standard provides for Gigabit Passive Optical Network (GPON) Optical Network Unit (ONU) for single-fiber bidirectional three-port optical component's technical requirements, test methods, inspection rules, marking, packaging, storage and transportation requirements. This standard applies to GPON ONU Triplexer using optical assembly (hereinafter referred to as "components").

Document data

International classification (ICS): 33.180.01.

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 18,176 words.

Adopted international standard: ITU-T G984.2-2003, NEQ.
