What this standard covers

This standard specifies the electromagnetic environment parameters, environmental characteristics and characteristic severity of environmental parameters of telecommunication equipment operating in four electromagnetic environments: large telecommunication centers, small telecommunication centers, outdoor environments and user environments. This standard applies to telecommunication equipment operating in telecommunication centers, outdoor locations and user environments.

Document data

Chinese classification (CCS): L06.

Supersedes the earlier edition YD/T 1482-2006.
