What this standard covers

This standard specifies requirements for IPv6-based Intermediate System Routing Protocol (IS-IS) technical requirements, including the IPv6 reachability TLV, IPv6 interface address TLV, IPv6 NLPID, operation, safety and other aspects of the regulations. This standard applies to support IS-IS for IPv6 related products.

Document data

International classification (ICS): 33.040.

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 8,875 words.
