What this standard covers

This standard specifies the symmetry line for protection against over-voltage and over-current conductors insulated converter connector technical requirements and test methods. This standard does not include over-voltage protection bracket or detachable exposure requirements. This standard does not apply to equipment insulation including conversion connector requirements.

Document data

International classification (ICS): 29.200.

Chinese classification (CCS): K46.

Estimated length of the Chinese original: 16,167 words.
