What this standard covers

This standard specifies the 2GHz cdma2000 Digital Cellular Mobile Telecommunication Network switching subsystem communication system operational and functional testing, performance testing, overload protection, maintenance, operations management and troubleshooting, synchronous detection, echo suppressors (or elimination) inspection, environmental testing, signaling protocols and mobile switches transmission index tests. This standard applies to 2GHz cdma2000 digital cellular mobile communication network system switching subsystem equipment.

Document data

International classification (ICS): 33.040.01.

Chinese classification (CCS): M15.

Estimated length of the Chinese original: 124,181 words.
