INDUSTRY STANDARD OF THE PEOPLE'S REPUBLIC OF CHINA

YD/T 1576.23-2013

Test method of mobile station (including non UIM mobile station) for 800MHz/2GHz cdma2000 digital cellular mobile telecommunication network. Part 23: Protocol conformance test/data service signaling

800MHz/2GHz cdma2000数字蜂窝移动通信网设备测试方法 移动台（含机卡一体） 第23部分：协议一致性 数据业务信令

5.28 Mobile Terminal Terminated Short Data Burst

5.29 Mobile Terminal Assisted Burst Operation Parameters Message Test

5.30 SS Ignores Mobile Terminal Requested Mode Transitions

5.31 Mobile Terminal Multiplex Option different from SS Multiplex Option

1 Foreword

YD/T 1576.23-2013 was issued by Ministry of Industry and Information Technology on 25 April 2013.

It is one of 3 parts of the YD/T 1576 series.

This standard specifies the signaling conformance test method for high speed packet data (HSPD) of mobile station for 800MHz/2GHz cdma2000 digital cellular mobile.

It is applicable to 800MHz/2GHz cdma2000 mobile communication terminals supporting CSIM/RUIM card (UIM Mobile Station) and not supporting CSIM/RUIM card (Non UIM Mobile Station) (hereinafter referred to mobile terminal). The CSIM/RUIM card includes that supporting UIMID and EUIMID.

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated reference, the latest edition (including all the amendments) applies.

For the purposes of this document, the following abbreviations apply.

--Test frequency point: General 283 Channel or 384 Channel may be used, and other frequency points may also be used.

2 Scope

This standard specifies the 800MHz/2GHz cdma2000 digital cellular mobile communication network mobile high-speed packet data services (HSPD) signaling conformance test methods.It cites 1 other standard.

3 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document.

3GPP2 C.S0017-004-A

4 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 31 pages (approximate)

5 Related standards

Other parts of this standard:

YD/T 1576.21-2013 - Part 21: protocol conformance test. Essential signalling

YD/T 1576.22-2013 - Part 22: protocol conformance test. SMS signaling

6 Classification and status

International classification (ICS): 33.060.99

Chinese Standard Classification (CCS): M 36

Prefix YD/T: recommended standard.
