What this standard covers

This standard specifies the 800MHz and 2GHz 's CDMA digital cellular mobile communication system base station equipment, CDMA2000 digital cellular communication system base station equipment and auxiliary equipment, electromagnetic compatibility requirements and measuring methods. This standard applies to transmit and receive voice and/or data 800MHz and 2GHz CDMA communication networks and CDMA2000 fixed or mobile communication network base station radio equipment and the corresponding auxiliary equipment (including base station controllers, radio network controllers and relays etc.).

Document data

International classification (ICS): 33.100.

Chinese classification (CCS): L06.

Estimated length of the Chinese original: 30,376 words.

Supersedes the earlier edition YD 1169.2-2001; YD/T 1597.2-2007.
