What this standard covers

This standard specifies the 2GHz cdma2000 Digital Cellular Mobile Telecommunication Network Broadcast Multicast Service (BCMCS) access network (AN) network architecture reference model, AN basic system functional requirements, certification requirements, synchronization requirements, interface requirements, performance requirements, environmental requirements, power and ground, operation and maintenance (O & M) requirements and so on. This standard applies to based 2GHz cdma2000 Digital Cellular Mobile Communication Network Packet Data (HRPD) (first phase) and based 2GHz cdma2000 digital cellular mobile communication network high-speed packet data (HRPD) (second phase) of the broadcast multicast service access network equipment.

Document data

International classification (ICS): 33.060.99.

Chinese classification (CCS): M36.

Estimated length of the Chinese original: 8,850 words.
