What this standard covers

This standard specifies the 2GHz TD-SCDMA digital cellular mobile communication network for data transmission and the transmission of signaling common transport channel data streams on Iub interface, but does not include the physical layer transmission bearer. This section applies to 2GHz TD-SCDMA digital cellular mobile communication network speed downlink packet access (HSDPA) the Iub interface.

Document data

International classification (ICS): 33.070.99.

Chinese classification (CCS): M37.

Estimated length of the Chinese original: 10,132 words.

Adopted international standard: 3GPP TS25.426 V5.6.0, IDT.
