What this standard covers

This standard specifies the 800MHz/2GHz cdma2000 digital cellular mobile communication network packet data serving node (PDSN), Home Agent (HA) and the AAA server, etc. The main function of the device, protocol requirements, billing requirements, performance requirements, safety requirements and quality of service requirements and other aspects. This standard applies to 800MHz/2GHz cdma2000 digital cellular mobile communication system PDSN HA and AAA devices.

Document data

International classification (ICS): 33.060.99.

Chinese classification (CCS): M37.

Estimated length of the Chinese original: 167,117 words.

Adopted international standard: 3GPP2 X.S0011-D V1.0: MOD.
