What this standard covers

This standard specifies the 800MHz/2GHz cdma2000 digital cellular mobile communication network High Rate Packet Data (HRPD) (second stage) access terminal and access network signaling conformance test content, including default signaling applications, the default packet application, the flow layer protocol session layer, link layer, security layer and MAC layer content of the test. This standard applies to 800MHz/2GHz cdma2000 digital cellular mobile communication network High Rate Packet Data (HRPD) the second phase of digital cellular mobile communication systems.

Document data

International classification (ICS): 33.060.99.

Chinese classification (CCS): M36.

Estimated length of the Chinese original: 98,971 words.

Adopted international standard: 3GPP2 C.S00038-A v1.0, NEQ.

Standards quoted by this document

3GPP2 C.S0024-A V2.0; 3GPP2 C.S0044-0 V1.0
