What this standard covers

This standard specifies the product classification, requirements, test methods, and inspection rules, marking, packaging, transportation and storage of prefabricated termination components for incoming optical cables for communications. This standard applies to prefabricated termination components for single-core, dual-core and multi-core single-mode incoming optical cables with prefabricated optical fiber connector plugs in the factory.

Document data

International classification (ICS): 33.180.10.

Chinese classification (CCS): M33.
