What this standard covers

This standard provides for gigabit passive optical network (GPON) for single-fiber bidirectional dual-port optical component's technical requirements, test methods, mechanical and environmental performance testing, inspection rules, marking, packaging, storage and transportation requirements. This standard applies to Gigabit Passive Optical Network (GPON) for single-fiber bidirectional dual-port optical components.

Document data

International classification (ICS): 33.180.01.

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 18,179 words.

Adopted international standard: ITU-T G.984.2, NEQ; ITU-T G.984.5-2007, NEQ.
