What this standard covers

This standard specifies the 800MHz/2GHz cdma2000 digital cellular mobile communication network Multimedia Domain (MMD) access network and the network domain security features and mechanisms, including how to protect subscribers and IMS SIP signaling between the network and the subscriber and network how to perform mutual authentication between. This standard applies to 800MHz/2GHz cdma2000 digital cellular mobile communication network Multimedia Domain (MMD) system is part of the technical requirements for safety equipment.

Document data

International classification (ICS): 33.060.01.

Chinese classification (CCS): M36.

Estimated length of the Chinese original: 33,335 words.

Adopted international standard: 3GPP2 S.S0086-B v1.0 051213-2005, NEQ.
