What this standard covers

This standard specifies the abbreviations, terms and definitions, technical requirements, test methods, reliability tests, inspection rules, marking, packaging, transportation and storage requirements of the optical performance monitoring function module. This standard applies to OPM in optical fiber communication systems. OPM in other optical fiber line systems can also be used.

Document data

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 33,395 words.

Supersedes the earlier edition YD/T 2153-2010.
