What this standard covers

This standard specifies the 2GHz TD-SCDMA/WCDMA digital cellular mobile communication network front end circuit domain video surveillance equipment, general features, functions and protocol structure, business processes, and terminal requirements, hardware requirements, performance requirements for wireless communications, communication protocols, monitoring, performance requirements, methods of testing and so on. This standard applies to adopt 2GHz TD-SCDMA/WCDMA art digital cellular mobile communication system, mobile front-end circuit domain video surveillance equipment.

Document data

International classification (ICS): 33.060.20.

Chinese classification (CCS): M37.

Estimated length of the Chinese original: 29,271 words.
