What this standard covers

This standard specifies the signaling conformance test content of the 800MHz/2GHz cdma2000 digital cellular mobile communication network high speed packet data (HRPD) (third stage) access terminal and access network, including default signaling application, default packet application The layer, the layer, the connection layer, the security layer, the MAC layer, the physical layer, the enhanced multi-stream packet application, and the multi-link multi-stream packet application test content. This standard applies to the digital cellular mobile communication system of the third stage technology of 800MHz/2GHz cdma2000 digital cellular mobile communication network high speed packet data (HRPD).

Document data

Chinese classification (CCS): M36.

Estimated length of the Chinese original: 142,185 words.

Adopted international standard: 3GPP2 C.S00038-B v1.0, MOD; 3GPP2 C.S0081-0 v1.0, MOD.
