What this standard covers

This standard specifies the 800MHz/2GHz cdma2000 digital cellular mobile communication network broadcast multicast service (BCMCS) (second stage) access network (AN) network architecture reference model, AN basic system functional requirements, certification requirements, synchronization requirements, interfaces requirements, equipment performance requirements, environmental requirements, supply and ground, operation and maintenance (O & M) requirements and so on. This standard applies to 800MHz/2GHz cdma2000 -based digital cellular mobile communication network high-speed packet data (HRPD) based on the first stage and the second stage 800MHz/2GHz cdma2000 digital cellular mobile communication network High Rate Packet Data (HRPD) Broadcast Multicast Access Network equipment.

Document data

International classification (ICS): 33.060.20.

Chinese classification (CCS): M37.

Estimated length of the Chinese original: 8,853 words.
