What this standard covers

This standard specifies the small hot-swappable modules (SFP) light transmission assembly (TOSA) the terms and definitions, technical requirements, test methods, reliability testing, inspection rules, marking, packaging, transport and storage. This standard applies to small hot-swappable modules (SFP) light transmission components, hereinafter referred to as "TOSA".

Document data

International classification (ICS): 33.180.20.

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 20,295 words.
