What this standard covers

This standard specifies the 800MHz/2GHz CDMA2000 digital cellular mobile communication network service management interface information chess opening type. This section applies to the analysis 800MHz/2GHz CDMA2000 digital cellular mobile communication network service provisioning management interface, design and implementation.

Document data

International classification (ICS): 33.060.

Chinese classification (CCS): M60.

Estimated length of the Chinese original: 34,328 words.
