1 Foreword

YD/T 2562.2-2013 is issued by Ministry of Industry and Information Technology.

It is one of 2 parts of the YD/T 2562 series.

The YD/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the procedures in idle mode UE access layer (AS) part. Idle mode procedures of non-access stratum (NAS) part is not described in this standard. This standard describes the functional model of the UE divided between NAS and S.

YD/T 2562.2-2013 falls under ICS 33.060.99, in the field of telecommunications.

This catalogue holds 3,420 other YD/T standards in that field.

In this catalogue, YD/T standards carry edition years from 1982 to 2026.

3 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document.

YD/T 2562.1-2013 - Technical requirement for TD-LTE digital cellular mobile

Preview: page 2 of 3 shown, 19 in the full document. Complete English PDF, instant download:

telecommunication network Uu interface layer three(phase 1). Part 1: RRC protocol

4 Where this standard sits

It cites one other standard, YD/T 2562.1-2013, listed in full above.

One other standard in this catalogue cites it: YD/T 2741-2014.

It is one part of the YD/T 2562 series, of which this catalogue holds 2 parts.

5 About this standard

Issued by: Ministry of Industry and Information Technology

English translation: about 19 pages (approximate)

6 Related standards

Other parts of this standard:

YD/T 2562.1-2013 - Technical requirement for TD-LTE digital cellular mobile telecommunication network Uu interface layer three(phase 1). Part 1: RRC protocol

Standards on related subjects:

GB/T 32401-2015 - Technical requirements and measurement methods for VHF/UHF frequency

YD/T 2689-2014 - Technical Requirement for LTE based Broadband Trunking Communication(B-TrunC)

GB/T 12572-2008 - Universal requirements and measurement methods of parameters for radio transmitting equipment

YD/T 2574-2017 - LTEFDD digital cellular mobile telecommunication network. Testmethod of eNodeB equipment(Phase 1)

YD/T 2573-2017 - LTE FDD digital cellular mobile telecommunication network. Technical requirement of eNodeB equipment(Phase 1)

7 Classification and status

International classification (ICS): 33.060.99

Chinese Standard Classification (CCS): M 36

Prefix YD/T: recommended standard.
