1 Foreword

YD/T 2638.3-2024 was issued by Ministry of Industry and Information Technology on 10 December 2024 and has been in force since 1 April 2025.

It is one of 2 parts of the YD/T 2638 series.

2 Scope

This standard specifies the priority call technology of VoLTE based on LTE network in public telecommunications networks, including the functional description, parameter settings, message flow, and equipment functional requirements of priority access control technology and user priority access enhancement technology. This standard applies to terminal equipment, wireless subsystem equipment, EPC core network, and IMS system equipment for VoLTE services using priority call technology.

3 About this standard

Sector: Telecommunication Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards
